

The Dance Centre COVID Safety Protocols

★ Entering the building:

- Instructors will have their temperature checked/logged and apply hand sanitizer upon entering the building.
 - Students will wait in their vehicles or along the sidewalk next to the ENTER sign while maintaining social distancing of at least 6 feet apart.
 - Students will be called by an instructor and enter through the second lobby entrance and the door will remain open.
 - An instructor will take each student's temperature with a no-touch thermometer and it will be logged in the role book.
 - If temperature is > than 100°F, the individual must go home, monitor, and contact PCP.
 - Each student will apply hand sanitizer during their entrance screening.
- ★ We are working on having virtual options via Zoom for certain classes.

★ Entering the Building Continued...

- To limit exposure risk, loitering in the lobby is not permitted.
- We politely ask parents/guardians and/or siblings to stay in their vehicles or return to the studio for pick up at the end of class.
- However, if the student is 6 years old or younger, they may be accompanied into the building by one parent or guardian.
- Masks are required at all times while in the building.
- **We asking anyone to stay at home if they have been experiencing:**
 - Fever greater or equal to 100°F.
 - Cough that is new, different or more severe than season allergies.
 - New or worsening loss of smell or taste.
 - In the last 72 hours, have had contact (unmasked less than 6 feet for 10 min or more) with anyone who is waiting for COVID-19 test results or who has a confirmed positive COVID-19 test.

★ Entering and using the studio:

- Students will go straight to their assigned studio.
- Students will need to stagger their belongings at least 6 feet apart by utilizing the markings along the walls.
 - If Studio C is unoccupied, please place your belongings in there.
- In the main lobby there will soon be Ionopure Sanitizer diffusing through a Homech Cool Mist Diffuser during our hours of operation.

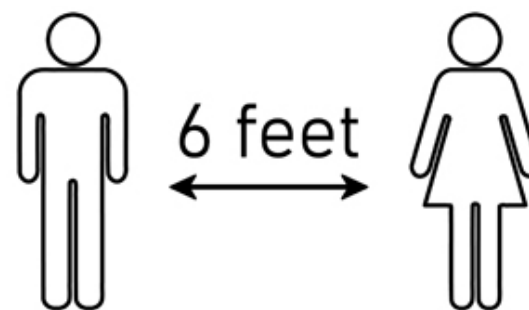

**STUDENT
ENTRANCE
ONLY**

★ During active class time:

- Social distancing:
 - Dancers should maintain a distance of at least 6 feet apart, but preferably 10 feet apart if possible, as there is some research showing that the breath from exercise can carry the virus greater distances.
 - Activities that would require direct or indirect contact, such as partnering, or any movements involving touching the face, will be restricted until further notice.
- Masks are required at all times while inside the building.
- The water fountain will be closed. Please bring your own water bottle or drink. You may remove your mask during water breaks, but please ensure you maintain a safe distance of at least 6 feet apart.
- Students are free to use the restrooms at any time, but we ask the restroom only be occupied by one person at a time.

★ During active class time continued...

- Floor work: there will be tape markings on the floor spaced 6-10 feet apart.
- Across the floor: there will be tape markings on the baseboard/walls spaced 6 feet apart to utilize while waiting your turn. Students will go across the floor one at a time and must wait to begin their turn only after the student before them has completely moved to the other end.
- Barre: The only group equipment that will be utilized during this time will be the ballet barres. Students and barres will be spaced out appropriately.

★ Exiting the building:

- Students will exit through the main front door.
- There will be hand sanitizer in the lobby for easy access while exiting.
- We will aim to hold the door open or have the door propped open to prevent any extra contact with high-touch surfaces.
- Students that do not yet drive may wait to be picked up in the main lobby. Chairs will be spaced out to maintain social distancing.
- One parent/guardian of students 6 years or younger may enter the main lobby area at the time of class dismissal for pick-up.

★ Measures between classes:

- There will be a delay of at least 5 minutes between classes to allow for:
 - Cleaning between classes.
 - Time to conduct entrance screenings with temperature checks.
 - Avoid exiting & entering simultaneously.
- What will be cleaned between classes?
 - All high-touch surfaces such as:
 - Doors/handles
 - Ballet barres (if used)
 - Stereos and instructor's phone
 - Floors
 - Bathroom door handles
 - Toilet handles
 - Sink handles

★ Cleaning Specifics:

- Hand sanitizers in each room.
- Antibacterial soap in bathrooms.
- Hygienic paper towel dispenser in the bathrooms.
- Ionopure by Ionogen is our primary sanitizer & disinfectant of choice.

- Ionogen solutions mimic the way your white blood cells kill germs, so you can disinfect better than bleach, without toxic chemicals, residue, or fumes.
- Up to 200x more effective than bleach, but 100% safe.
- Disinfectant: Ingredients: 99% water, 1% HOCl/free available chlorine (2,200 ppm)
- Sanitizer: Ingredients: 99% water, 1% HOCl/free available chlorine (670 ppm)
- COVID-19 can be killed at 500 ppm of chlorine.

- Ionopure Sanitizer in a Homech Cool Mist Humidifier that is designed for rooms 215-430 ft². This will vaporize the sanitizer solution with its 360° Rotating Nozzle into the air and cover a broader area more continuously. A great complementary measure to our frequent cleanings.

- ★ Coming Soon: IonoMini Mister will allow us to efficiently and evenly clean our large studio space and floors with Ionopure Sanitizer or Disinfectant. It's spray can reach up to 22 feet and it can cover 8,000 square feet in an hour.
